

SOUTHERN STEEL BERHAD

ENVIRONMENTAL POLICY STATEMENT

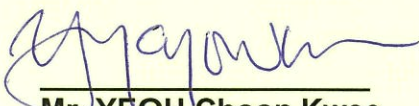

SSB Group, as a manufacturer of various steel products and in tandem with our quest for business excellence, endeavor to reduce our environmental footprint.

Henceforth, we are committed to:

1. Conduct our operations with the goal of maintaining a conducive working environment for all our employees.
2. Fulfill environmental compliance obligations and other requirements.
3. Establish sustainable work practices for the protection of the environment at work place.
4. Monitor and reduce our Green House Gases (GHG) emissions.
5. Mitigate energy use by utilizing energy resources efficiently and conserving energy.
6. Conserve and use water efficiently along with reclaim, recycle and reuse approach.
7. Manage waste effectively and practically by means of 'reduce, reuse & recycling'.
8. Enhance circularity through recycle and reuse of all internally generated steel scrap within the Group as a steel making resource.
9. Promote circular economy by maximising the use of steel scrap as a key resource in steel making and reduce reliance of natural resources.
10. Pursue continual improvement to enhance environmental performance by conducting periodic materiality assessment to identify key focus areas.
11. Promote Environment, Social & Governance (ESG) awareness through employees' training.

This environmental policy shall be made available to all employees and all interested parties.

Approved by,

Mr. YEOH Choon Kwee
Group Managing Director
